

Fish School

Fish School

EASY CLEANING WITH ANTIBACTERIAL WIPES

Turn any space into an interactive aquarium! Fish School is an interactive digital aquarium that teaches kids about fishes' unique adaptations to their aquatic habitats.

This large touchscreen tank is multi-user friendly, and invites guests to guide 3D fish between different aquatic zones, observing how the effects of new environmental conditions play out in real-time. Fish responds directly to guests' touch and actions.

This can be a standalone exhibit or part of a larger experience.

Developed in collaboration with

AGES

- Children (5+) and Adults

LEARNING CONCEPTS

- Early Biology: classification, aquatic habitats, adaptations
- Cause and Effect
- Cooperative Play

Standard Specifications

PHYSICAL UNIT
