

Bot Builder Academy

Bot Builder Academy

EASY CLEANING WITH ANTIBACTERIAL WIPES

Have fun and be creative without the extra mess with the Bot Builder Academy! This digital touchscreen interactive game allows kids to harness their creativity and self-expression. Choosing from over 80 different features, shapes, accessories and colors, kids can assemble their own robots. Completed robots are sent to Bot Academy, where they can experiment in chem lab, paint in art class, and join the graduating class!

With over 2 billion possible combinations, no two robots will ever be quite the same.

This exhibit includes freestanding kiosk(s) to build the bots and a large-format display where kids can observe their bots interact with other bots at the Bot Academy. This can be a standalone exhibit or part of a larger experience.

AGES

- Early Learners (2+)
- All Ages

EARLY LEARNING CONCEPTS

- Socio-emotional development: connecting with characters
- Imagination & creativity: free play & self-expression
- Language: communication
