

# Picnic Puzzle

# Picnic Puzzle

Picnic Puzzle is a puzzle-based challenge aimed to teach early learners about food groups, portions, and how healthy eating affects our bodies.

Using color matching and shape recognition as a game mechanic, players learn how to build a balanced meal by placing colorful puzzle pieces, representing staples from major food groups, on the gameplay dinner plate. Guests learn digestible food factoids along the way with some help from the game's cast of original characters who guide you along the way.

This can be a standalone kiosk or part of a larger exhibit.

Developed in collaboration with

## AGES

- Early Learners (2+)
- All Ages

## EARLY LEARNING CONCEPTS

- Scientific thinking: healthy habits, food groups
- Executive function: color-matching, shape recognition
- Socio-emotional skills: connecting with characters
